

GREAT LAKES PORTUGUESE WATER DOG CLUB

Is Having An Event

April 7, 2019

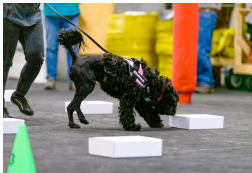

9:30 am until finished

Please join us for a day of fun and information.

The Doctor Will See You Now!

We are pleased to present Dr. Nick Vitale, DVM, of Heritage Animal Hospital who will be speaking about regenerative medicine (especially so for orthopedic issues), Specifically Stem Cell Therapy and Platelet Rich Plasma. He will also talk about minimally invasive laparoscopic surgery for spaying and neutering. These are very important topics, the very latest techniques in treating your best four footed friend.

See What The Nose Knows! Cindy Angiulo, Instructor and Judge, will give us an introduction to the sport of Scent Work. And what is scent work or nose work as it is also called? It mimics the detection canine. It's Fun and dogs Love it! Everyone and every dog will be able to participate, from puppies to the older generation. No experience necessary. Demonstrations will be given. Come and discover a new way to bond, motivate, and play with your PWD.

Cindy has impressive accomplishments in the dog sport world.

Club Membership Meeting will be held during lunch time.
